There was nothing particularly interesting to note in this month's list apart from the application to fell a Black Locust Tree (to which the Society and others had objected) was refused.

We also reported to the Committee on the following developments of interest to the Society, which then led to further discussion:

- Haslar Gunboat Yards (site visit)
- GBC Waterfront and Town Centre SDP (final version published and out for consultation)
- Exterior Furniture at *The Victualler* in Royal Clarence Yard.(Planning Inspector dismissed the appeal by the applicant, and upheld GBC's decision to refuse permission for the retention of the furniture.)

We also gave a brief report on the main topics discussed at the 17 Jan GBC Regulatory Board, which included the following application on which the Gosport Society had not been consulted or commented:

- 5 new 'Hangar Homes' at Solent Airport (approved)
